LIFT STATION AND SEWER LINE CLEANER

LIFT STATION AND SEWER LINE CLEANER is a fast acting, odorless liquid specifically designed to eliminate grease problems in lift stations, sewer plants, septic tanks, grease traps, cesspools, and drainage fields. This special formula is heavier than water to sink below the water line to the point of obstruction and dissolve the congestive grease, oils, lint and other organic matter at the source.

DIRECTIONS

Pour 8 to 10 gallons of **LIFT STATION AND SEWER LINE CLEANER** into the sump or manholes as close as possible to the obstruction. For best results, use **LIFT STATION AND SEWER LINE CLEANER** regularly to keep lift station and sewer lines open and free flowing. For the removal of difficult obstructions, a second application may be necessary.
