

LEMON ODOR CONTROL

Concentrated Deodorant

Form: Liquid

Color: Clear to Hazy, Yellow

Odor: Lemon

pH: N/A

Solubility (in water): Soluble
(in mineral spirits): No data available

VOC Content (% by wt): <10

Flash Point (Closed Cup): 108°F

Specific Gravity: 0.99 g/cm³

Density: 8.24 lbs/gal

Storage Stability (at 70°F): 1 year

Ideal for use in...

- Hospitals
- Restaurants
- Locker Rooms
- Nursing Homes
- Garbage Cans
- Dumpsters
- Air Conditioning Systems
- Schools
- Hotels
- Motels
- Cigarette Urns
- Kennels

Ingredients

C.A.S. #

Water.....	7732-18-5
Isopropanol.....	67-63-0
Linear Alcohol Ethoxylates.....	34398-01-1
Fragrance.....	Proprietary
d-Limonene	5989-27-5

DIRECTIONS: To control odors in aerators, lagoons, open digesters, and filter beds, inject undiluted LEMON ODOR CONTROL into the line leading to the source of odor. The amount of LEMON ODOR CONTROL injected will vary with temperature, air movement and intensity of odor to be controlled. Another method is to use equipment to spray or mist undiluted LEMON ODOR CONTROL over the source of the odors, allowing air movement to carry it over the area, mixing it with the odors, vapor or fumes. To control odors in sewer mains and laterals, pour, spray or drip undiluted LEMON ODOR CONTROL into the lines. Also spray manholes and drains thoroughly. For garbage and containers, trucks and dumps, spray Undiluted LEMON ODOR CONTROL liberally over the source of the odors. Deodorize the containers, conveyors and trucks regularly using LEMON ODOR CONTROL.
