DANGER:
Flammable liquid and vapour. May cause an allergic skin reaction. Causes serious eye damage.

Keep away from heat, open flames, sparks. - No smoking. Keep container tightly closed. Ground/bond container and receiving equipment. Use explosion-proof electrical, lighting equipment. Use only non-sparking tools. Take precautionary measures against static discharge. Avoid breathing mist, spray. Contaminated work clothing must not be allowed out of the workplace. Wear eye protection, protective clothing, protective gloves. Take off contaminated clothing and wash it before reuse.

IF ON SKIN (OR HAIR): Take off immediately all contaminated clothing. Rinse skin with water/shower.

IF SKIN IRRITATION OR RASH OCCURS: Get medical advice/attention.
IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a doctor, a POISON CENTER.

In case of fire: Use foam, carbon dioxide, dry chemical to extinguish.

Store in a well-ventilated place. Keep cool. Store locked up.

DISPOSAL:
Dispose of contents/container to comply with local/national/international regulations.

For industrial and commercial use only.

For additional information, see Safety Data Sheet.

NFPA® RATINGS:
Health: 1; Flammability: 3; Reactivity: 0

INGREDIENTS/CAS #:
Water/7732-18-5; Isopropanol/67-63-0;
Linear Alcohol Ethoxylates/34398-01-1;
Fragrance/Proprietary; d-Limonene/5989-27-5

Lemon Odor Control

LEMON ODOR CONTROL is a fresh, new approach to the difficult problem of controlling offensive odors in sewage plants, aerators, sewer mains and laterals, garbage and refuse containers, haulers and dumps, and lagoons. **LEMON ODOR CONTROL** effectively neutralizes odors without affecting bacterial action in digesters, lagoons, filter beds, septic tanks or drain fields.

DIRECTIONS:
To control odors in aerators, lagoons, open digesters and filter beds, inject undiluted **LEMON ODOR CONTROL** into the line leading to the source of odor. The amount of **LEMON ODOR CONTROL** injected will vary with temperature, air movement and intensity of odor to be controlled. Another method is to use equipment to spray or mist undiluted **LEMON ODOR CONTROL** over the source of the odors, allowing air movement to carry it over the area, mixing it with the odors, vapor or fumes. To control odors in sewer mains and laterals, pour, spray or drip undiluted **LEMON ODOR CONTROL** into the lines. Also spray manholes and drains thoroughly. For garbage and containers, trucks and dumps, spray undiluted **LEMON ODOR CONTROL** liberally over the source of the odors. Deodorize the containers, conveyors and trucks regularly using **LEMON ODOR CONTROL**.

WARNING:
This product contains, or may contain, trace quantities of a substance(s) known to the state of California to cause cancer and/or reproductive toxicity.
