**In case of fire:** Use foam, carbon dioxide, dry chemical to extinguish.

Store in a well-ventilated place. Keep cool. Store locked up.

Dispose of contents/container to comply with local/national/international regulations.

*For industrial and commercial use only.*

*For additional information, see Safety Data Sheet.*

#### NFPA® RATINGS:

Health: 2; Flammability: 2; Reactivity: 0

#### INGREDIENTS/CAS #:

d-Limonene/5989-27-5; Solvent Red 24/85-83-6

**NATURAL FLOATING LIFT STATION DEGREASER** is a revolutionary new formula designed to simplify the cleaning, degreasing and deodorizing chores in lift stations, sewer lines and grease traps. The extraordinary solvent activity of natural citrus extracts provide the power needed to penetrate and dissolve thick grease deposits. Due to its unique design, **NATURAL FLOATING LIFT STATION DEGREASER** floats on the surface of the water to strip fats, dirt and grease from walls of lift stations with the rising and falling action of the water level. A built-in color indicator allows the operator to determine product levels by visual inspection.

**NATURAL FLOATING LIFT STATION DEGREASER** is biodegradable and it contains no petroleum distillates or chlorinated solvents to disturb bacterial activity. Its light fresh scent of oranges makes lift station maintenance more pleasant.

#### DIRECTIONS:

Use 1/2 gallon of **NATURAL FLOATING LIFT STATION DEGREASER** for each square foot of water surface area. Spray or pour directly down lift station walls when water is at its lowest level.

LIFT STATION DIAMETER	SURFACE AREA (Sq. Ft.)
4 ft.	12.6
6 ft.	28.3
8 ft.	50.2
10 ft.	78.5

It is recommended to maintain a 1 to 2 inch layer of **NATURAL FLOATING LIFT STATION DEGREASER** at all times. A built-in color level indicator allows the operator to determine product level by visual inspection.

Please Recycle.
