For industrial and commercial use only.

For additional information, see Safety Data Sheet.

WARNING:

This product contains, or may contain, trace quantities of a substance(s) known to the state of California to cause cancer and/or reproductive toxicity.

Please Recycle.

DIRECTIONS

For normal cleaning, dilute one part of **COMMODORE** with 20 to 25 parts of warm water. Spray, wipe, or sponge cleaning solution onto surfaces to be cleaned. Allow several minutes to penetrate grease, dirt and accumulations then rinse thoroughly with clean water. Tough soil deposits may require a second application with light scrubbing to ensure complete removal.

For heavy duty cleaning (i.e. cleaning whitewall tires, air filters, greasy floors, flues, etc.), apply **COMMODORE** full strength and allow to set for 10 to 20 minutes. For hot tank cleaning, allow parts to soak for approximately 30 minutes at 140°F; rinse with water. Severely soiled parts may require scrubbing with a brush.

Dispose of contents/container to comply with local/regional/national/international regulations.
