

Dynasty Micro BC Bacterial Digestant

**FOR USE IN SEPTIC TANKS,
LIFT STATIONS,
WASTE TREATMENT PLANTS,
LAGOONS, AND SEWER LINES**

See back panel for additional precautions

KEEP OUT OF REACH OF CHILDREN

NET CONTENTS: ONE QUART

Dynasty Micro BC Bacterial Digestant

DYNASTY MICRO BC when applied to municipal, industrial, or institutional waste processing operations or sewerage systems will remove odors, reduce BOD and COD, reduce sludge depth and keep lines flowing freely. The facultative bacterial spores in **DYNASTY MICRO BC** are cultured for their ability to digest waste quickly, efficiently, and without odors. This fast-acting liquid quickly breaks down proteins, starches, carbohydrates, and animal and vegetable fats.

For industrial and commercial use only.

For additional information see Safety Data Sheet.

WARNING:

This product contains, or may contain, trace quantities of a substance(s) known to the state of California to cause cancer and/or reproductive toxicity.

DISPOSAL:

Offer empty container for recycling. If recycling is not available, discard container in trash.

DIRECTIONS

Drain Lines: To maintain free-flowing drain lines, use 3 to 4 ounces of **DYNASTY MICRO B.C.** every day in each line. Apply at the end of the day or when the flow is at its lowest. Always treat the lowest floors first and work your way to the upper floors of a building.

Surface Odors: To treat odors caused by spoiled food, vomit, urine, feces, mold and mildew or other organic spills, dilute 1 to 1 with water. Spray a heavy mist to wet the surface and allow the surface to remain wet. Repeat as needed.

Carpets and Upholstery: Remove as much soil as possible, using a general purpose cleaner if necessary. Dilute **DYNASTY MICRO B.C.** 1 to 1 with water and spray to wet the fibers thoroughly. Lay a warm (not hot), damp towel over the area to keep moist for at least 24 hours. Severe stains and odors may require a daily treatment for up to 10 days.

NFPA® Ratings

Health: 1; Flammability: 0; Reactivity: 0

Contains/CAS Number:

Water/7732-18-5; Polyoxyethylene (20) sorbitan monolaurate/9005-64-5; Tetrasodium ethylenediamine tetraacetate/64-02-8; Proprietary solution/Mixture; Citric acid/77-92-9
