Please see label or chart on the outside of the box for complete use directions, dilutions, and all the numerous applications.

DIRECTIONS: For most applications, 2 - 6 ounces of THUMBS UP diluted in a gallon of warm water will clean, destain, and deodorize most problems. Some stains will disappear immediately and some will require a certain soak time.

NOTE: Be sure to test THUMBS UP in an inconspicuous area for colorfastness allowing it to dry. Do not leave a diluted solution of THUMBS UP in a sealed container for a long time. The solution continues to give off oxygen causing the container to leak. Do not use on silk, wool or leather. Do not mix with bleach.
