

D'LOX WIPE AWAY

Concentrated Surface Cleaner

Form: Liquid

Color: Colorless

Odor: Citrus

pH: 9.0 - 10.0

Solubility (in water): Soluble
(in mineral spirits): Insoluble

VOC Content (% by weight): <1.00 %

Flash Point (ASTM D-7821): >210°F

Specific Gravity: 1.01 g/cm³

Density: 8.43 lbs/gal

Storage Stability (at 70°F): 1 year

<u>Ingredients</u>	<u>C.A.S. #</u>
Water.....	7732-18-5
Hydrogen Peroxide	7722-84-1
Surfactant	Proprietary
Sodium Hydroxide	1310-73-2
Lemon-Lime Perfume	Proprietary

Use on...

- **Metal / Glass / Plastic**
- **Upholstery / Carpeting / Fabric**
- **Appliances / Counter Tops / Tile**
- **Floors / Walls / Furniture**
- **Coffee / Tea / Soda Stains**
- **Grease / Wine / Juice Stains**
- **Grass / Blood / Ink Stains**
- **Pet Stains**
- **Mold / Mildew Stains**

DIRECTIONS: Prepare a solution of D'LOX WIPE AWAY and cold tap water using the dilution rates suggested below. Spray onto surface to be cleaned and allow a minute or two for the cleaner to penetrate into the soil and then wipe away. Always test solutions in an inconspicuous area of surface to be cleaned before using.

Light Duty: Dilute 1 ounce per gallon of cold tap water to clean such surfaces as glass, mirrors, stainless steel and counter tops. Use this dilution for use with scrubbing machines.

Medium Duty: Dilute 3 ounces per gallon of cold tap water for cleaning more difficult soils such as mold and mildew stains, greases and oils. Use this dilution for mopping greasy and dirty kitchen and bathroom floors. This dilution may also be used for odor elimination in bathrooms and garbage areas.

Heavy Duty: Dilute 10 ounces per gallon of cold tap water for stubborn stains, shop floors, and bathroom surface renovation.
