For industrial and commercial use only.

For additional information, see Safety Data Sheet.

NFPA® RATINGS

Health: 1; Flammability: 1; Reactivity: 0

DIRECTIONS FOR USE:

To Dispense:

1. Remove cap and pull towel through the "X" located in the center of the lid.
2. Replace lid onto container and close hinged tab to prevent towels from drying out.
3. When removing a towel, pull at a 90° angle until towel tears away at perforation.

Spot Removing:

1. Blot stained spot with a towel until the stain begins to disappear.
2. Set-in stains may require additional blotting or rubbing.

Odor Elimination:

1. Once stain is removed, moisten towel and lay over the affected area.
2. Leave for 24 hours so the natural bacteria in the towel may destroy the odor and eliminate unseen organic matter.

STAIN ERASER towels are premoistened with a special combination of powerful cleaning agents and live bacteria that quickly remove stains and eliminate odors. By simply blotting a towel over spots, this potent formula removes your toughest stains including wine, ketchup, grease and even blood. Cleaning agents separate stains from fibers while bacteria break down any organic soils to prevent them from restaining the carpet. The remaining residue is easily wiped up with the towel.

In addition, **STAIN ERASER** immediately eliminates odors using a two step process. First, a pleasant fragrance suppresses any foul odors. Secondly, the bacteria in the cleaning formula digest organic waste which cause malodors. This is especially helpful in eliminating foul stains caused by pets, vomit, mold, mildew and spoiled food. To avoid stains, odors and the high cost of professional carpet cleaners, let **STAIN ERASER** do the work for you.

INGREDIENTS/CAS #:

Water (7732-18-5); Propylene Carbonate (108-32-7); Sodium Bicarbonate (144-55-8); Sodium Lauryl Sulfate (151-21-3); Styrene Maleic Anhydride Copolymer (52720-34-0); d-Limonene (5989-27-5).

Please Recycle.

Canister made from 25% post-consumer recycled plastic.
