

BLAST

HIGH VOLUME CONDENSER AND EVAPORATOR COIL CLEANER

DANGER

Keep out of reach of children. Read label and SDS before use. Extremely flammable aerosol. Contains gas under pressure; may explode if heated. Causes serious eye irritation. Causes skin irritation. May cause an allergic skin reaction.

NET CONTENTS: 18 ounces (510 grams)

DANGER: Keep out of reach of children. Read label and SDS before use. Extremely flammable aerosol. Contains gas under pressure; may explode if heated. Causes serious eye irritation. Causes skin irritation. May cause an allergic skin reaction.

PREVENTION: Keep away from heat, sparks, open flames and hot surfaces. - No smoking. Do not spray on an open flame or other ignition source. Pressurized container: Do not pierce or burn, even after use. Wash hands and face thoroughly after handling. Wear eye protection. Wear protective gloves. Contaminated work clothing must not be allowed out of the workplace.

IF ON SKIN: Wash with plenty of soap and water.

If skin irritation or rash occurs: Get medical attention. Take off contaminated clothing and wash before reuse.

IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing.

If eye irritation persists: Get medical attention.

STORAGE: Protect from sunlight. Do not expose to temperatures exceeding 50°C/122°F. Store in a well-ventilated place.

DISPOSAL: Dispose of contents/container to comply with local/regional/national/international regulations.

For industrial and commercial use only.

For additional information, see Safety Data Sheet.

BLAST Coil Cleaner is an easy-to-use aerosol specifically developed to clean heating and cooling units without the hassles of tearing them down or moving them to the shop. Simply spray **BLAST** onto coils and fins and you're done.

BLAST'S powerful spray stream and foaming action immediately lifts away heavy dirt, lint, grease and grime that collects on components.

By eliminating these types of soils, **BLAST** ensures that compressors and pumps won't labor under damaging stress. This keeps heating and cooling units operating at peak efficiency.

Best of all, no water rinse or messy clean-up is required. The remaining residue that develops automatically washes away with the condensation that forms on fins and coils. Plus, **BLAST** quickly dries without leaving an oily film.

Use **BLAST** to clean hard-to-reach parts on air conditioners, refrigeration units, heat exchange equipment, icemakers, heat pumps - anywhere you find fins and filter components that keep equipment cool.

- Easily eliminates dirt, grease and grime from fins and coils.
- Just spray and walk away - no messy clean-up or rinsing.
- Powerful stream loosens soils from components.
- Non-corrosive, non-chlorinated solvent safely removes dirt from metal parts.
- Cleans both condenser (hot) and evaporator (cold) coils and fins.
- Leaves behind a fresh orange fragrance.

DIRECTIONS FOR USE:

Shake well before using. Turn unit off. Start spraying at the top of the unit and work your way down. Spray across fins and coils letting the flushing action of **BLAST** rinse away deposits and residue. For heavy deposits, spray **BLAST** onto fins and coils and let it work for several minutes, then come back and flush away. There is no need to rinse the fins or coils. The condensation from the unit will help wash away the **BLAST** and any remaining deposits.

INGREDIENTS/CAS #:

Isopropanol (67-63-0); Isobutane (75-28-5); 2-butoxyethanol (111-76-2); d-Limonene (5989-27-5); Propane (74-98-6)
